

Reset password in recovery mode mac

Continue

Pathak / How-To Geek Enter the password for the user account. You are now in your Mac's Recovery Mode. Khamosh Pathak / How-To Geek It's now business as usual. Here, you can choose to reinstall the OS, restore from Time Machine, use Disk Utility to format the Mac, and you can use Safari to browse the web. The steps for doing all these are the same as they were with Intel Macs. Once you've completed your task, it's time to go boot into macOS. To do this, click the Apple button from the menu bar and choose the "Restart" option. Khamosh Pathak / How-To Geek In just a couple of seconds, your Mac will reboot and you'll see the login screen. RELATED: How to Fully Restore macOS From a Time Machine Backup in Recovery Mode
